ABSTRACT

To gauge how its schools are performing, the state of Utah produces a statistical and financial data report each year; the results of the 1994-95 report are presented. The report is divided into three parts: a statistical section, statewide revenue/receipts, and statewide expenditures/disbursements. The data in the first part feature statistics on student enrollment, number of public schools by district, high school graduates, dropouts, full-time certificated personnel, pupil/teacher ratios, average contract salary and career-ladder monies, special-education programs, applied-technology programs, adult-education programs, extended-year programs, incidents of delinquency, sources of school revenue, and other information. The section on statewide revenues focuses on maintenance and operation, non K-12 programs, debt service, capital projects, building reserve, food services, internal services, trust funds, and student activities, and concludes with a summary of revenues and other financing sources. The last section, which details expenditures, analyzes many of the same categories as examined in the revenues section, but offers information on the status of school bonds and other indebtedness of administrative units, and provides a current expenditures sum ary. (Includes a glossary.) (RJM)

GLOSSARY OF TERMS

ADULT EDUCATION - Organized public educational programs, other than regular full-time and summer elementary and secondary day school, which provide opportunities for adult and out-of-school youth who have not graduated to further their education.

AIDE - A person who acts as an assistant to a teacher to assist with routine activities. The assignment may include making minor decisions regarding students such as monitoring, conducting rote exercises, operating equipment, and clerical duties.

ALTERNATIVE HIGH SCHOOL - A nonstandard high school for students with special needs, interests, or learning styles.

APPLIED TECHNOLOGY EDUCATION - Organized educational programs, services, and activities which are directly related to the preparation of individuals for paid or unpaid employment or additional preparation for a career requiring other than a baccalaureate or advanced degree.

APPROPRIATION - An authorization granted by a legislative body to make expenditures and incur obligations for specific purposes.

ASSESSED VALUATION - The total value of property subject to the ad valorem property tax in a taxing entity (such as a school district). Related terms:

> Taxable Property - Property which is subject to assessment and taxation according to its value, but it does not include monies, credits, bonds, stocks, representative property, franchises, goodwill, copyrights, patents, or other intangibles.
>
> Fair Market Value - The amount at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of the relevant facts. Fair Market Value includes the adjustment for intangibles for real property assessed by the county assessor. (Intangible values may lessen the actual amount that may be received in a particular sales transaction.)
>
> Taxable Value - Fair Market Value less any applicable reduction allowed for residential property. From January 1, 1994, forward, the residential exemption is 32 percent. U. C. 59-2-103(2).

ASSESSED VALUATION, ADJUSTED - The Utah Neighborhood Redevelopment Act allows redevelopment agencies (RDA s) to receive tax increment funds (taxes raised as a result of increased value or tax rate in relation to the established redevelopment project's base tax year) to finance redevelopment projects. This is also known as Tax Increment Financing or TIF. As tax increment dollars are sent to redevelopment agencies and not to taxing entities, the equivalent valuation (or redevelopment valuation adjustment) of those increment dollars must be reduced. An **ADJUSTED** assessed value (the assessed value less the adjustment for redevelopment) is the value taxing entities use to multiply by the tax rate and estimated collection rate to determine an estimated dollar yield.

ASSESSED VALUATION PER PUPIL, ADJUSTED - The adjusted assessed valuation per pupil is the adjusted assessed valuation for a school district divided by the district's total average daily membership (ADM).

AVERAGE DAILY ATTENDANCE (ADA) - The aggregate attendance of a school during a reporting period (normally a school year) divided by the number of days school is in session during this period. Only days on which the pupils are under the guidance and direction of teachers are considered days in session. ADA data were no longer reported after 1982-83 and average daily attendance is estimated to be 0.9462 of Average Daily Membership.

AVERAGE DAILY MEMBERSHIP (ADM) -

> Membership - The number of pupils on the current roll of a class or school as of a given date.
>
> Aggregate Days of Membership - The sum of all days of membership of all students during a school year (990 hours of instruction).
>
